

Good [Morning] [Afternoon] All,

NEPO Portal Upgrade - Update

This is a reminder to advise that NEPO will be upgrading their e-tendering system on 23rd May 2016.

The new link will be <https://procontract.due-north.com>

The NEPO Portal will be entirely unavailable for tender submissions and the raising of queries from 5pm on Thursday 19th May until 8.30am on Monday 23rd May.

To review the changes taking place, online help is available at <https://supplierhelp.due-north.com>. Look out for NEPO's dedicated 'Navigating the Portal' sessions which will provide an overview of the new system at www.nepo.org.

All communications will continue to be loaded onto our Homepage (www.nepo.org) along with some general advice such as 'What's New for Suppliers' and a checklist of recommended first actions.

The next notification you receive will come directly from the e-tendering system provider which will detail in full what you need to do with your specific account to be ready for this change.

Kind Regards,
NEPO Portal Systems Team
