OUT OF AUTHORITY PLACEMENTS - 2016

PART ONE – GATESHEAD COUNCIL POLICY OUTLINE

Policy outline

- Within Part 1 this Policy sets out the Councils aims and Sufficiency Duties.
- Part 2 sets out general information concerning Out of Authority placements, also, the importance of the Care Plan and Notifications prior to the placement of a Child.
- Part 2 also includes a section relating to Children who are placed externally by Gateshead Council, this being on both a planned and emergency basis. Flowcharts are included.
- Part 3 concerns where there is an intent to place Children within the Borough of Gateshead from other Local Authorities.
- Pro-formas are attached to the rear of this Policy as an Appendix to be utilised as necessary. This includes Appendix 1 – Information for External Placements and Appendix 2 Notification Letter and Pro-forma.
- Within Appendix 3 Roles and responsibilities of Workers are explained.
- Within Appendix 4 Regulations & Guidance details are included including Key Terms.
- Appendix 5 details a letter to Local Authorities to be forwarded when a Local Authority is considering placing a Young Person within Gateshead Borough, this letter setting out the facilities and services.

Council Aim

Gateshead Council aim to place the majority of its Looked After Children within the borough of Gateshead wherever possible and in line with their best interests with a Council resource. The reason is as follows;

- Children can benefit from being raised in an area with which they identify and feel familiar, therefore having more a sense of belonging.
- There will be improved matching given the knowledge of existing resources, thus contributing to better outcomes.
- Education and health services are less likely to be interrupted.
- Safeguarding will be improved as monitoring will be easier to manage.
- Rehabilitation to the family home, where appropriate, will be less complicated and easier to plan.
Sufficiency duty and the need for diverse placements

Within this context, in line with statutory guidance, Gateshead plans and reviews resource provision for the anticipated numbers of Children who are to be Looked After. It is recognised that placement within Gateshead for all of its Looked After Children, however, is unlikely to be achieved given the diverse placement needs where placement choice needs to be available to best meet the needs of the Young Person. This is similarly the case for all Local Authorities when placing Looked After Children where there can be resource shortfalls, particularly where there are complex placement needs.

It is accepted, therefore, that for certain Young People there will need to be better placement choice in order for successful outcomes to be achieved. This will, on occasions be best met by placement of the Child outside of their area.

PART 2 - OUT OF AUTHORITY PLACEMENTS MADE BY GATESHEAD COUNCIL-PROCESS

This concerns the following situations:

- Gateshead placing Children into a neighbouring authority
- Gateshead Placing Children into a distant authority.

The above instances may include situations whereby:

- an approved Foster Carer by Gateshead Council lives out of the borough (usually in a neighbouring authority but not always) with Children from Gateshead placed with them.
- a Child or Young Person from Gateshead is placed with an Independent Foster Carer from an area outside of Gateshead borough, either in a neighbouring or distant area.
- A Child or Young Person is placed within an out of borough Children’s home, either Local Authority or Independent.

There are 2 types of circumstances whereby Young People are placed out of Gateshead, this being on either a planned or emergency basis. The flowcharts within this section detail the placement expectations regarding both planned and emergency placements. Roles and responsibilities are outlined within Appendix 3 with regard to these requirements. The following general principles, however, should be adhered to with this regard;

- All attempts to place the Young Person safely within the borough of Gateshead should have been carefully explored in the first instance.
- Permission to place with a neighbouring authority or with a distant authority must be gained at the appropriate level, i.e. in respect of a distant placement by the Service Director and in respect of a neighbouring placement by the Nominated Officer. This is detailed within the Flowcharts. With regard to residential placements, permission must be obtained via the Service Director through attending the External Placement Panel.
- In the event of a resource being required, attempts must be made in the first instance to find a placement with a neighbouring authority and on the approved regional contract list as this increases safeguard.
- Involvement of the area authority where the Young Person is to be placed must commence from the moment a placement is considered a possible option. It is expected, in line with statutory guidance that there will be contact and consultation during the planning and placement stages.
Information sharing with the proposed Local Authority in which the Child or Young Person may be placed must be undertaken prior to placement in respect of planned placements via undertaking an update of the Care Plan. There must be openness and transparency with this regard with the proposed provider being aware what information is being shared. Should the placement involve a high level of risk, consultation should also involve the Police within the proposed local area of the placement. The criteria of when to notify the Police are as follows:

- Is a victim of CSE
- Believed/suspected to be at risk of CSE
- Suspected/known to be a CSE perpetrator
- Has past episodes of missing/absent from care or home
- Has a gang involvement or association
- Is a trafficked Child
- Is an unaccompanied asylum seeker

It should be noted that the criteria for consultation with the Police in respect of a prospective placement must take place also when the above criteria is met with a Gateshead foster carer who lives in either a neighbouring or distance authority.

Consultations must always take place with the Young Person and Parents as appropriate and the IRO consulted in planned placements.

Consultation must always include education and health including any specialist resources to ensure that the needs of the Child or Young Person can be catered for.

There must be an expectation of scrutiny expected from the area in which the Child or Young Person is to be placed in order to promote safeguard both for the Young Person to be placed and for the Young Person/People already placed. Gateshead Council Staff will supply any necessary information identified as important with this regard.

As a matter of good practice, in line with requirements, Gateshead as the responsible authority for the Young Person will share any matters of significant concern or risk with Local Authorities where Children are placed both before and during a placement. This is in order that Local Authorities or relevant agencies can ensure that adequate safeguards are in place/put in place for the safety and wellbeing of all Children Looked After.

Importance of discussing and sharing the Care Plan/ Risk Assessment and Appendix 1 External Placements Information with proposed Local Authority, and also Police (where appropriate-see below)

The information listed in Appendix 1 External Placements Information should be discussed in the event that a placement with a distant placement is being considered. This must be undertaken when preparing or updating the Care Plan and Risk Assessment and all documents must be forwarded to Local Authorities during the consultation process for their agreement concerning a prospective out of authority distant placement.

In the undertaking/completion of the Care Plan (or its update), Risk Assessment and Appendix 1 External Placements Information, it is important that dialogue with the Local Authority and relevant Agencies takes place.

Regardless as to whether this relates to a neighbouring or to a distant Local Authority, the Police must also be notified of a decision to place when any of the following criteria are met:

- Is a victim of CSE
- Believed/suspected to be at risk of CSE
- Suspected/known to be a CSE perpetrator
- Has past episodes of missing/absent from care or home
- Has a gang involvement or association
- Is a trafficked Child
- Is an unaccompanied asylum seeker
• It must be stressed that the details listed in the checklist should all be contained in adequate detail within the Care Plan in order that the statutory requirements are able to be met and a decision as to whether to place can be arrived at in a timely manner and in the best interests of the Child.

• Note the completed Care Plan, Risk Assessment and Appendix 1 External Placements Information must be sent to the Local Authority prior to any decision being made about the suitability of the placement, except in the case of an emergency placement. The Police must also receive this information in the circumstances previously outlined when the criteria is met.

• It is not necessary for the Checklist itself to be forwarded to the Local Authority concerned.

• Note that support services should be included within the Care Plan and this should also detail the need for any specialist services. Discussion and agreement with the area authority will be crucial with this regard.

**Notifications prior to the placement of a Child**

The Regulations state that the following must be notified concerning a placement prior to a placement being made. (i.e. in planned placements).

The Child (unless it is inappropriate to do so having regard to their age and understanding).

If the Child is in the care of the responsible authority any person who is allowed contact with under Sec 34 (1) and any person who has contact with the Child by virtue of an order under Sec 34.

If the Child is looked after but is not in the care of the responsible authority, any person who has contact with them pursuant to an order made under Section 8 – (Residence, Contact and other orders with respect to Children).

Any person who was caring for the Child immediately before the arrangements were made.

The Primary Care Trust.

The registered Medical Practitioner and the Practitioner where Child is to be registered.

The Educational establishment attended by the Child or the person providing education or training.

The Independent Reviewing Officer.

Note that the Regulations state that the responsible authority may decide not to give notification to any person listed if to do so would put the Child at risk of harm.

In addition to this list, whilst not required under regulations the Police must also be notified when the criteria is met.

- Where, on the basis of the information received, or on the basis of knowledge of the provision where the Child has been placed, there are known concerns, the Nominated Officer will contact the responsible authority to share the concerns. - In the event of a notification regarding a Child placed externally within Gateshead where there has been a serious occurrence, the Nominated Officer will consider the information forwarded and take any action promptly considered to be necessary in terms of liaising with the responsible authority, relevant agency such as the police, health, education etc. in order to secure safeguards.
